

## **The Coverage Corner**

Insurance everyone's favorite topic! It's one of the most vital purchases you make both in business and personally that you cannot evaluate until you need it. It can spell the difference between financial ruin and survival in the event of a tragedy. I know that you understand this but this is why the Chamber decided that it is a good idea and a benefit to its members to have a column addressing the topic and its potential pitfalls.

I am asked a plethora of questions at each meeting and throughout my day revolving around coverage, claims and the reason for specific types of insurance. I have noticed that a lot of people have the same questions so this column will address the questions I have compiled and hopefully we can have lots of "audience participation". My email will be at the bottom of each column so I encourage each of you to send me any questions you have.

The column will address many types of insurance questions and topics that you have including but not limited to:

- Business Insurance
- Personal Insurance
- Workers Compensation
- Life Insurance
- Professional Liability
- Directors & Officers Liability
- Bonds
- ...whatever else you can come up with.

Thank you for reading, participating and remember "don't be cornered by your coverage."
